Zevs Grom

January 2025

1 Let's calculate this statement

8 + 10 - 22 * 100 + 30

Okay, let's find solution:

$$8 + 10 \tag{1}$$

Answer is for the intermediate step: 18

Okay, let's find solution:

$$22 \cdot 100 \tag{2}$$

Answer is for the intermediate step: 2200

Okay, let's find solution:

$$18 - 2200 \tag{3}$$

Answer is for the intermediate step: -2182

Okay, let's find solution:

$$-2182 + 30 \tag{4}$$

So, answer is: -2152
